GITHUB

github.com/herzblutnord

LOCATION

Germany / Karlsruhe area

DATE OF BIRTH

24 Nov 1994

CORE STACK

Java · Spring Boot · Maven · Flutter ·
Linux · nginx · HTML/CSS · Git

TECHNICAL SKILLS

Backend

Java, Spring Boot, REST APIs, JWT authentication, Flyway, Maven, JUnit

Frontend

Flutter / Dart, Android, PWA / web, HTML, CSS / SCSS, Vue / Nuxt

Database

PostgreSQL

Infrastructure

Linux (Ubuntu, Arch), nginx, systemd, Bash, server administration

Security & networking

SSH, Fail2Ban, WireGuard, firewall configuration, TLS / Certbot, monitoring

CI/CD & tooling

GitHub Actions, GitLab CI (web, Android and Nuxt SSR deployments), Git, GitHub / GitLab, IntelliJ IDEA, WebStorm, Codex

AI tooling

AI coding tools from multiple providers. Applied to code review, debugging, analysis and refactoring.

Microsoft / Azure

Microsoft Entra ID, Intune, Office 365 administration, PowerShell

LANGUAGES

German, English and Russian fluent.
Basic Japanese.

TARGET ROLE

Full-time role after graduation.
Equally open to software development (frontend, backend, platform-adjacent) and operations-focused roles such as DevOps, CI/CD, SysOps or system administration.

PROFILE

Computer Science student at DHBW Karlsruhe, graduating October 2026. DHBW is a cooperative degree programme, so I have been working full-time in IT since 2022 alongside my studies. My experience spans backend services, cross-platform apps, CI/CD pipelines and self-hosted Linux infrastructure, with a practical focus on building things that are maintainable and work in production.

WORK EXPERIENCE

2022–2026 Pro-Liberis gGmbH – IT Administrator & Developer

- Azure / Entra ID administration and Intune device management including Autopilot deployment
 - Microsoft 365 administration
 - Internal tool development: Java, PowerShell, Bash and Power Automate
- Pro-Liberis is the dual-study partner organisation for my DHBW degree. Working full-time alongside studying means I am graduating with roughly four years of professional IT experience.

EDUCATION & BACKGROUND

2010–2014 Richard-Fehrenbach Gewerbeschule Freiburg

- General university entrance qualification (Fachabitur, Technical Gymnasium)
- Specialisation: Computer Science
- Followed by: Deltaprüfung (full Abitur equivalency exam)

2015–2017 Working Holiday in Japan

2017–2022 Heidelberg University

- East Asian Studies / Byzantine Studies
- Specialisation: Japanese Studies

2022–2023 DHBW Karlsruhe – Business Informatics

- Specialisation: Software Engineering

2023–2026 DHBW Karlsruhe – Computer Science (Bachelor's)

- Expected graduation: October 2026
- Focus areas: software development, web/mobile apps, CI/CD and infrastructure
- Practical project work with Java, Flutter, PostgreSQL and Linux-based deployment
- Software Quality module: assessing and hardening CI/CD pipelines for quality and security
